Copper Tubing

Cupro-Nickel

Copper

Specifications of Copper Tubing

Brake pipe coils available in copper & 90/10 copper-nickel material manufactured to BSEN 12449 CWO24A and CW352 H respectively.

Coils are available in metric & imperial sizes along with 20 or 22 gauge thickness.

Seamless tubes offering better resistance to corrosion and splitting. Easy to bend, flare & install. 100% electronically & pressure tested for pin holes.
