

Anti-Spark Hose

Product Characteristic:

- Flame-resistant double-deck PU hose can be used under soldering or sparkles condition.
- Outer layer use flame-resistant resin(correspond to UL-94,standard V-O).
- The inner hose material is TPU.

Product Use:

- Suits for use under the working condition with spark.

Specifications:

- Use fluid: Air, Water
- Highest working pressure(at 20°C): 0.8Mpa
- Temperature range approximately—20°C——+60°C
- Fluid temper ice range water environment 0——40°C (Doesn't frozen)

Color:

Blue、Transparent、 Orange、 Black、 Green、 Yellow、 Red

Datasheet:

Item No.	Inner tube O.D.	Inner tube I.D.	Outer tube thickness	Minimum Beveling Radius
